Status of the Claims

1. Claims 3-4, and 27-28 are pending based on the Appeal Brief filed on 4/12/06.

Response to Applicant's Arguments

2. The argument on page 11 of the 4/12/06 Appeal Brief "...produce a report summarizing at least some of the receipts..." taught by Tognazzini, can not make obvious the pending invention because using "at least some of the receipts" are not enough information to make a proper inventory, as the main idea of this invention; this argument is persuasive; therefore, the final office action issued on 3/07/2006 are withdrawn.

Drawings

3. This application is filed with formal drawings on ..., and they are accepted by the examiner.

Reasons for Allowance

4. Independent claims 3, and 27 are patentable over the closest references of Tognazzini (US Pat. 5,739,512), because Tognazzini does not make obvious the pending invention by teaching an inventory using "at least some of the receipts" in a method or a computer program product embedded in a computer medium for maintaining inventory records of products being sold using electronic receipts:

5. Claims 21-24, 26, 28, and 31-34 are allowed because they are dependent on allowable claims 19, and 29.

Conclusion

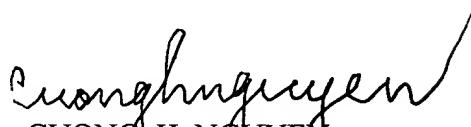

6. Claims 3-4, and 27-28 are patentable; claims 27-28 are renumbered as claims 1-2.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CUONG H. NGUYEN whose telephone number is 571-
